

Two way VHF base station radios,

Two (paired) Dakota Alert Two way VHF base station radios that do not require a license. The Multi-Use Radio Service (MURS) permits the use of 5 specific VHF frequencies in the 151 – 154 MHz spectrum range **without a license requirement**. These are capable of transmitting and receiving a distance of two miles. MURS radios can be used for both business and personal use. These are several years old and work like new, I just do not need them any longer. (New Price is \$74.99 each)
